Experience

App Designer

UCSD Mobile Systems Design Lab

February 2023 - current | La Jolla, CA

- Designed interface and optimized user experience for both patient-facing and physical therapist-facing sides of machine-learning based physical therapy app
- Collaborated closely with product manager, developers and stakeholders to ensure design aligned with technical feasibility and business objectives

UX Design Intern

Trees.app

Jan 2023 - April 2023 | Remote

- Participated in design sprint to ideate, wireframe, and prototype recommendation mechanics for machine learning-based student productivity app
- Conducted quantitative & qualitative research through competitive analysis, surveys, and user interviews

UX/Graphic Designer

Packed

November 2022 - April 2023 | La Jolla, CA

- Created graphics, marketing collateral, and site/app screens weekly using Figma and Adobe Creative Suite for student-created sustainable food delivery startup
- Collaborated with marketing to ideate and enforce visual rebranding guidelines across all user-facing material for hard launch to over 40,000 students

Lead Marketing & Graphic Design Assistant

UCSD Campus Performance and Events Office

January 2022 - current | La Jolla, CA

- Produced graphic/video digital and print collateral to promote large-scale events and artists for Associated Students Concerts and Events, ArtPower, and Epstein Family Amphitheater
- Directed and mentored teams while delegating design and research tasks and formulating marketing strategies to reach over 40,000 UCSD students, alumni, and the greater San Diego area
